ZENBEXUS™ REMS | Pharmacy Enrollment Form

To become certified in ZENBEXUS REMS (Risk Evaluation and Mitigation Strategy), pharmacies must:

- Review the **Prescribing Information**
- Review the **Prescriber and Pharmacy Guide**
- Complete this **Pharmacy Enrollment Form**

Complete this Pharmacy Enrollment Form for ZENBEXUS REMS:

- **Online** at www.BMSREMSPatientSafety.com **or**
- **Email** to REMSContactCenter@bms.com **or**
- **Fax** to 1-877-296-1932

Complete all required fields on this form to avoid a delay in the enrollment process.
Upon completion of these steps, ZENBEXUS REMS will notify you of your successful certification.

Pharmacy Responsibilities

As the Authorized Representative, I must:

- Review the **ZENBEXUS™ (iberdomide) Prescribing Information**
- Review the **Prescriber and Pharmacy Guide**
- Complete and submit this **Pharmacy Enrollment Form** to ZENBEXUS REMS
- Train all relevant staff involved in counseling and dispensing ZENBEXUS using the **Prescriber and Pharmacy Guide**
- Establish processes and procedures:
  - **For females who can become pregnant and males:** To complete the Pharmacy Counseling Checklist and submit it to the REMS
  - **For females who can become pregnant:** To dispense when there are 7 days or less remaining on the patient's existing prescription and to dispense no more than a 28 day supply
  - **For males:** To dispense no more than a 28 day supply

Before dispensing ZENBEXUS, pharmacy staff must:

- **For All Patients:**
  - Obtain confirmation to dispense each prescription by contacting the REMS to verify prescriber is certified; the patient is enrolled, not pregnant, and authorized to receive ZENBEXUS. Document the confirmation number
- **For Females Who Can Become Pregnant:**
  - Using the **Pharmacy Counseling Checklist**, counsel the patient on:
    - The risk of embryo-fetal toxicity
    - The need to use effective methods of contraception every time they have sex, beginning at least 4 weeks before taking ZENBEXUS, while taking ZENBEXUS, and for at least 4 weeks after stopping ZENBEXUS
    - The need to complete pregnancy testing every 4 weeks
    - The need to complete a **Patient Survey** every 4 weeks
    - The need to immediately contact their prescriber and stop treatment if the patient misses a menstrual period or if pregnancy is suspected
  - Establish processes and procedures to verify there are 7 days or less remaining on the patient's existing prescription
  - Submit a completed Pharmacy Counseling Checklist to ZENBEXUS REMS
- **For Males:**
  - Using the **Pharmacy Counseling Checklist**, counsel the patient on:
    - The risk of embryo-fetal toxicity
    - The need to use a latex or synthetic condom every time they have sex, beginning at least 4 weeks before taking ZENBEXUS, while taking ZENBEXUS, and for at least 4 weeks after stopping ZENBEXUS
    - The need to complete a **Patient Survey** every 4 weeks
  - Submit a completed Pharmacy Counseling Checklist to ZENBEXUS REMS

At all times, pharmacy staff must:

- **For Females Who Can Become Pregnant:**
  - Dispense only if there are 7 days or less remaining on the existing prescription
  - Dispense ZENBEXUS within 7 days of the date of the last pregnancy test
  - Dispense no more than a 28-day supply (21 days of treatment followed by a 7-day treatment-free period) with no refills
  - Ship medication the same day the confirmation number is obtained or have it picked up within 24 hours of obtaining the confirmation number
  - Ensure shipment method avoids delays or interruption in therapy
- **For Males:**
  - Dispense no more than a 28-day supply (21 days of treatment followed by a 7-day treatment-free period) with no refills
  - Ship dispensed medication within 24 hours of receiving the confirmation number or have it picked up within 24 hours of obtaining the confirmation number
  - Ensure shipment method (overnight, ground) avoids delays or interruption in therapy
  - Report any suspected pregnancy in the patient's sexual partner to ZENBEXUS REMS at 1-888-423-5436

Pharmacy Responsibilities (cont'd)

- **For Females Who Cannot Become Pregnant and Males:**
  - Ship dispensed medication within 24 hours of receiving confirmation number or have it picked up within 24 hours of obtaining the confirmation number
  - Ensure shipment method (overnight, ground) avoids delays or interruption in therapy
- **Additional Requirements:**
  - Report any suspected pregnancy to ZENBEXUS REMS at 1-888-423-5436
  - Do not distribute, transfer, loan, or sell ZENBEXUS™ (iberdomide), except as authorized by ZENBEXUS REMS
  - Maintain records of dispensing information
  - Maintain records of completion of the REMS training by relevant staff
  - Maintain records that all processes and procedures are in place and are being followed
  - Comply with audits carried out by Bristol Myers Squibb Company or a third party acting on behalf of Bristol-Myers Squibb Company to ensure that all processes and procedures are in place and being followed
  - Have a new Authorized Representative enroll by completing and submitting a Pharmacy Enrollment Form if the Authorized Representative changes

Pharmacy Authorized Representative Consent

I acknowledge that ZENBEXUS is available only through a restricted distribution program called ZENBEXUS REMS. In order to receive or dispense ZENBEXUS, pharmacies must be certified in ZENBEXUS REMS.

By signing this Pharmacy Enrollment Form, I confirm my understanding of the risks of ZENBEXUS treatment. I agree to become certified as a ZENBEXUS REMS Pharmacy Representative and comply with all its requirements.

*Authorized Representative Signature:	*Date:

For more information, call the REMS Call Center at 1-888-423-5436.
